Dear Water Customer:

Starting on August 9th through August 13th, the water department will be flushing the fire hydrants in all areas north of Canal Street in the Village of Ellenville.

During this week you may experience dirty or cloudy water. Run the cold water tap in your sink and until it is clear. If you need any assistance, you can call the water department at 647-5740 or Village Hall at 647-7080.

Thank you for your cooperation.

Senior Water Operator

Michael Avery, Jr.
